## Harbor Commission Staff Report

September 14, 2016  
Agenda Item No. 7

**TO:** HARBOR COMMISSION

**FROM:** Chris Miller, Harbor Manager - 949-644-3043,  
cmiller@newportbeachca.gov

**TITLE:** Discounted Vessel Sewage Pumpout Service for Offshore Mooring Permittees

---

**ABSTRACT:**

In an effort to improve and promote water quality, and to provide services to the mooring permittees, the City is considering a program to provide a discounted rate for vessel sewage pumpout service for the offshore mooring permittees. When the concept was presented to the City Council in June 2016, they recommended the Harbor Commission provide input on the program details.

**RECOMMENDATION:**

1. Review the program details and recommend staff seek City Council approval.

**FUNDING REQUIREMENTS:**

There is sufficient funding within the City's proposed FY17 budget to cover this expense. The exact dollar amount is yet to be determined, but is estimated to be \$40,000 to \$50,000.

**DISCUSSION:**

In May 2016, staff issued a Request for Proposal and received two responses from both of the local mobile pumpout companies serving Newport Harbor. The overall concept is to contract with both of these companies for a maximum dollar amount estimated to be approximately \$20,000 to \$25,000 each. The mooring permittees could choose either company for service therefore maintaining a level playing field for the two vendors. The permittees would pay the discounted rate, and then the City would pay the difference via monthly invoices submitted by the vendors. These invoices would also include some usage statistics such as name, mooring number, vessel, gallons pumped etc. The City will closely compare each vendor's statistics to identify potential program misuse (e.g., a vessel exceeding maximum number of monthly pumpouts by using both vendors). The

contract is anticipated to run until funds are depleted or until one year, after which the program will be evaluated for its effectiveness.

A promotional flyer will be developed and donated by The Bay Foundation who supports similar pumpout programs in other Los Angeles harbors. The City will send each mooring permittee a flyer, and will coordinate with the Newport Mooring Association as well.

This agenda item was originally scheduled for the June 8, 2016 Harbor Commission meeting, but was tabled due to a lack of a quorum. (Commissioners Avery, Kenney, McIntosh and Stapleton must all be present to discuss this item.) Staff presented the concept to the City Council at the June 14 Study Session, and they were generally supportive of the idea, but stressed that, if implemented, the permittees should be responsible for a portion of the pumpout cost.

**ENVIRONMENTAL REVIEW:**

Staff recommends the Harbor Commission find this action is not subject to the California Environmental Quality Act (CEQA) pursuant to Sections 15060(c)(2) (the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment) and 15060(c)(3) (the activity is not a project as defined in Section 15378) of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter 3, because it has no potential for resulting in physical change to the environment, directly or indirectly.

The agenda item has been noticed according to the Brown Act (72 hours in advance of the meeting at which the Harbor Commission considers the item).
