## ***Item IV.A. Minutes of the February 2, 2016 meeting.***

The following corrections are suggested:

**Page 1**, under Item III: “Mr. Mosher voiced his concern that he is now unable to pull **a** specific items to discuss and will only have three minutes to discuss the Consent Calendar in general unless a Commissioner has pulled an item.” [delete “a”]

**Page 3**, first paragraph: “Chair Howald opened the public comments. Regarding Item IV-F, Jim Mosher shared a message from Director Detweiler stating that a mock-up plaque dedicating “Cornwell Field at Mariners Park” had been erroneously included in the staff report and did not apply to this item. Seeing ~~none~~ no further requests to speak the public comments were closed. In response to questions from the Commissioners, Director Pisani clarified that Item IV-F includes only a request for approval of the standard bench dedication plaque specified in Policy B-17, not the one shown in the staff report.” [note: my memory is not perfect, but without benefit of listening to the audio recording this is my best effort to reconstruct what was said on this item.]

**Page 4**, after “Chair Howald closed the public comments”: “Discussion followed regarding the City’s liability in terms of now having a written report that categorizes the level of risk as low and moderate, and the potential for limb failure.”

**Page 5**, before “Chair Howald closed the public comments”: “He also stated that the organization currently using uses temporary fencing, but it is not safe or stable.”

**Page 6**, first line: “Director Detweiler announced the recent Grand Opening of Marina Park and as well as upcoming events.”
