Major Development Is Held Up

Beeco Company plans to cut off Superior Ave. and extend Balboa Blvd. inland in the West Newport Heights area being held up by the Newport Beach City Council because of the freeway controversy.

Tidelands Suit Viewed

The Newport Beach City Council is pursuing the possibility of a court case to decide the ownership of the Upper Bay tidelands.

Council members said Monday that legal action should be taken before the State Lands Commission considers the trade of Irvine lands and county property in the Upper Bay, already approved by the county supervisors.

Councilman Dee Cook expressed the belief that the tidelands trust automatically transferred to the City of Newport Beach upon annexation of the Upper Bay area.

"How to raise the title question?" Councilman Jay Stoddard asked.

"The question should be raised by the city and decided by the state supreme court," City Attorney Tully Seymour replied. Then he added, "If the city presses the case now, the entire trade may go down the drain."

"Why do you say that?" Mr. Stoddard asked.

"They may decide that the wrong body is party to the agreement," Mr. Seymour answered.

"That's exactly the issue," Mr. Stoddard commented.

Council members agreed that Mr. Seymour should study the matter and report back.

Copter Freeze Ordered

The Newport Beach City Council adopted an emergency ordinance Monday evening to prohibit landing or taking off a helicopter within city limits, except for previously approved locations.

The specific reason prompting this action was the request to establish a helicopter landing pad on top of the building Maccos Realty Co. plans to build at 2600 E. Coast Hwy. Action on this request was delayed last week by the Planning Commission. Only approved heliport in the city is at the Newport Inn.

The prohibitions set forth in the ordinance will be effective for a year, or until the Council adopts a regulatory ordinance, whichever event occurs first.

The City Council also:

- Adopted Ordinance 1114, authorizing the planning director to approve relocation of accessory structures, fences and parking areas in planned residential developments; increasing parking requirements but providing for waiver if equivalent spaces are otherwise available.
- Adopted Ordinance 1115, by a 4-3 vote, re-defining the grade of a sloping lot as the average of the ground level at all the corners of the exterior walls of a building, thus reducing the permitted height; re-defining basement, and prohibiting parking of cars on the roof of a building in any "R" district.
- Approved first reading of Ordinance 1116 for annexation of one-half of Campus Dr. in the Back Bay area, between Palisades Rd. and MacArthur Blvd.
- Approved first reading of Ordinance 1117, establishing a 5-foot front yard setback on 3 subdivided lots (now facing Bayview Dr.) between Fernleaf Ave. and the Fernleaf-Goldenrod alley, Corona del Mar; set public hearing for Feb. 8.
- Adopted Ordinance 1111, setting up a bureau of fire prevention, creating fire zones, regulating open air fires, adopting by reference the 1960 fire prevention code, controlling conditions

Oil Drilling LEGAL FIGHT MAPPED in the City?

The problem of oil drilling in the city will be discussed at a special meeting of the Newport Beach City Council at 7:30 p.m. today, Jan. 28, in the City Hall.

The problem was set forth by Councilman Jay Stoddard at Monday afternoon's study session: "We got a piece of oil land that we don't want," referring to the recent Beeco annexations in the Banning area inland of Coast Hwy. and westerly of Superior Ave.

Kadane & Sons holds an oil drilling lease from a portion of the annexed area and is asking for permission to drill additional wells.

Councilwoman Doreen Marshall expressed what seemed to be the consensus of the Council, "I understood that this land was not subject to oil production when it was annexed."

"I came out of the annexation discussions believing that we had not annexed any surface lease area," Mr. Stoddard said. "I don't think we should have annexed it. We should de-annex."

"If there had been the slightest indication that an oil well could have been drilled, I would have said no," said Councilman Dee Cook.

Hancock Banning III told the Council that there seemed to be no evidence of intent to go into oil drilling, so the area was included in the annex.

The oil drilling matter caused a delay in the annexation proceedings, and is now complicating the problem of providing an access road to Coast Hwy.

Representatives of Hoag Hospital and the City of Newport Beach met at the hospital Monday to discuss legal action against the State Highway Commission adoption of the coastal freeway route.

The city delegation included Mayor Paul Gruber, acting City Manager Joe Devlin and City Attorney Tully Seymour. Representing Hoag Hospital were Mrs. Winifred Bacon, administrator; J. Herbert Brownell and former Senator John Murdy Jr., board members; James Penney, local attorney for the hospital, and attorneys John McLaurin and Albert J. Day of the Los Angeles legal firm of Hill, Farrer, and Burrill.

The hospital representatives, concerned over the proximity of the proposed

Newport Beach Council members were warned Monday of the possibility of gambling interests moving into the city.

Mayor Paul Gruber brought up the subject at the end of the afternoon study session by presenting copies of a proposed emergency ordinance to block the threat.

He urged adoption of the ordinance that evening, so that it would become effective immediately.

The other Council members, however, balked at the emergency feature of the ordinance, objecting to the hasty action. When the matter came up in the official evening meeting, Councilman Jay Stoddard moved to eliminate the emergency section, and the ordinance was introduced as ordinary legislation. A hearing was set for the Feb. 8 Council meeting, and if adopted then, the ordinance would become effective 30 days later.

In the afternoon session, Mayor Gruber was hesitant about giving specific details, but he said, "This gambling ordinance is proposed for reasons we feel are very important. Some threats are posed. Very likely we will see something set up. It is a first class threat."

City Attorney Tully Seymour said that certain games are not mentioned in the state anti-gambling code and the present city code is not adequate to bar these games.

Police Chief James Glavas was called in, and he specifically mentioned a card game known as panguingue, which is not included in the prohibited games, and which is being set up in gaming houses in Southern cities.

"I object to having an ordinance thrown at us," said Councilman Dee Cook. "Our city laws were good enough to throw out the poker players and the pinball games. I am sure someone made an application."

Mayor Gruber replied, "No."

The police department has information from its intelligence resources," City Attorney Seymour said.

"It would take 45 days for an ordinance to become effective under ordinary procedure," Councilwoman Doreen Marshall remarked.

"By that time you would have a case in court," Mayor Gruber answered. "There are cases that have been prosecuted elsewhere, and this game has been ruled not to be under the gambling laws."

During the evening discussion Councilman Jay Stoddard said, "I would like to give the people the opportunity to know that we are considering this legislation. I hold no brief either for or against gambling. What we are against are the professional establishments coming in."

The eliminated emergency clause stated that "during the past year gambling interests have attempted to introduce card rooms and other forms of gambling into a number of cities throughout Los Angeles and Orange Counties," and that it is necessary to take immediate action "to prevent the establishment of gambling operations within the City of Newport Beach."

Teaching of Evolution Assailed

A complaint against use of certain prescribed school textbooks has been sent to the State Assembly by 5 Orange County housewives.

They cite state constitution and education code prohibitions against the teaching of sectarian doctrine, point out examples of such material in textbooks, and therefore question "the appropriation of public money by the legislature for the payment of these textbooks."

They refer specifically to the teaching of evolutionary doctrine, as opposed to the Biblical account that God created all things by the power of His spoken word.

The complaint states that the teaching of evolution is destructive of the faith in the authority of the word of God, thus hostile to religion, and prohibited by the first amendment to the U.S. Constitution.

The letters of complaint were sent to Assemblyman Robert Badham by Mrs. Jean Sumrall of Costa Mesa, and Mrs. Peggy Taylor and Mrs. Barbara Taylor of Santa Ana, and to Assemblyman James Whitmore by Mrs. Nell Segraves and Mrs. Betty Oliver of Santa Ana.

They call attention to a U.S. Supreme Court decision of June 17, 1963, which states "that the state may not establish a 'religion of secularism' in the sense of affirmatively opposing or showing

Textbooks Cited in Protest

The following school textbooks were listed in the formal complaint sent to state assemblymen, protesting the use of tax funds for purchase of textbooks which teach evolution as fact:

- "New Horizons Through Reading and Literature - Book 1."

Wants to Build on Ocean Beach

Gerald K. Wood of 1133 E. Balboa Blvd., Balboa, has requested permission to build a single family dwelling on the Balboa ocean front, oceanward of the boardwalk.

The location is the beach area in front of his residence, 2 lots westerly of the extension of D St.

"He intends to go ahead with the project," acting City Manager Joe Devlin told the Newport Beach City Council Monday.

"He has asked for a building permit."

"The best thing to do is to refuse the permit because of a cloud on the title to this property," Vice-Mayor Donald Elber said. "It's time to find out what the situation really is."

"The city could face a large-scale suit for arbitrary refusal of a permit," City Attorney Tully Seymour said. "The city could condemn the site for beach purposes."

Harmony Note on Unifying

High school trustees heard a report Tuesday from a joint committee of school district officials that taking a surprise vote on the matter would be a surprise.

Trustees Earl Peterson and Selma Franklin reported to the high school board that there was an agreement among the 11 school boards as to a unified school district.

The committee was formed to finalize plans for the Harbor Area's alternate unification, proposal to be set against that offered by the Tustin district at the county committee level.

Two members each from the Newport Harbor Union High School, Costa Mesa Elementary and Newport Beach Elementary boards were on the committee. In addition to Mrs. Peterson and Mr. Franklin, these were Mrs. Challen Landers and Donald Duncan of Newport Beach Elementary, and Jack Fletcher and Chris Holm of Costa Mesa Elementary.

There was a unanimous among the committee members that a unified district be named the obvious: Newport Harbor Unified School District. The committee also reached a preliminary

A revised set of by-laws was also presented during the meeting, held at the Edward Rathje home, 618 Via Lido Nord, Lido Isle.

Delay Action on Copter

The Newport Beach Planning Commission postponed indefinitely Thursday night a decision on granting a use permit for a private helicopter landing pad atop the proposed Maccos Development Co. building at 2600 E. Coast Hwy., Corona del Mar.

The planners wish to conduct a study determining locations where heliports would be compatible with the surroundings, and recommending safety and construction regulations, before deciding on this question.

In lieu of a decision, they recommended that the City Council pass an emergency ordinance establishing a moratorium on future helicopter developments in the city.

The Planning Commission also adopted a resolution commending the City Council for opposing the proposed coastal freeway route.

SUSPECT WANTED BY FBI IS NABBED HERE

A week and a half ago the FBI captured a pair of bank robbery suspects for Newport Beach police, and last Thursday the local force repaid the favor.

Richard Bittles, wanted in Maine for extortion, has been living quietly as Thomas Browning at 212 Onyx Ave., Balboa Island, until last Thursday, when the 38-year-old fugitive was charged with threatening Barbara Ann Ruby, 212½ Onyx Ave. After holding her at gunpoint for 2 hours, he apologized to her, and snapped, "The gun isn't loaded, don't make a scene."

Police arrested him on a charge of assault with a deadly weapon. The arresting officer, Kenneth Smith, recalls that "when I started untangling his fingerprints, he came all unglued."

"OUR AIM IS VICTORY - AT ALL COSTS!"

Death has come to a man of indomitable, bulldog courage, who rallied a nation against seemingly hopeless odds, and turned the tide of war against a monstrous tyranny, the leftwing conspiracy of his day.

Winston Churchill remains in spirit as a testimony to the faith of patriots who carry on the fight against the new tyranny, greater even than the enemy he helped bring down in defeat. What tremendous good fortune for the cause of freedom that there was a spokesman such as he for those critical days, rather than the no-win appeasers who seek to determine the aims and policies of this generation!

The fruits of the victory that Mr. Churchill helped achieve have been frittered away by those who came after him, and the nation that he rallied against Hitler's national socialists is being degraded and humiliated by the British socialists. Throughout the world, freedom is in great peril. But the powerful words that Mr. Churchill spoke during the dark days of World War II can inspire the unsung heroes of this day. Listen to these words, and take courage:

"We shall go on to the end. We shall fight in France. We shall fight on the seas and oceans. We shall fight with growing confidence and growing strength in the air. We shall defend our Island, whatever the cost may be. We shall fight on the landing grounds. We shall fight in the fields and in the streets. We shall fight in the hills. We shall never surrender." (From his speech of June 4, 1940, reporting on the loss of the European mainland and the evacuation from Dunkirk.)

"We are fighting by ourselves alone. But we are not fighting for ourselves alone. Here in this strong city of refuge which enshrines the title deeds of human progress, and is of deep consequence to Christian civilization; here, girt about by the seas and oceans where the navy reigns, shielded from above by the prowess and devotion of our airmen, we await undismayed the impending assault."

"We shall defend every village, every town, and every city. The vast mass of London itself, fought street by street, could easily devour an entire hostile army, and we would rather see London laid in ruins and ashes than that it should be tamely and abjectly enslaved." (From a radio broadcast July 14, 1940, when invasion by landing forces of the Nazis was expected hourly.)

"The gratitude of every home in our island, in our empire and indeed throughout the world, except in the abodes of the guilty, goes out to the British airmen, who, undaunted by odds, unwearied in their constant challenge and mortal danger, are turning the tide of world war by their prowess and their devotion. Never in the field of human conflict was so much owed by so many to so few." (His tribute to the Royal Air Force pilots who turned back the Nazi bombers during the Battle of Britain.)

"I would say to the House, as I have said to those who have joined this government; I have nothing to offer but blood, toil, tears and sweat." (May 13, 1940, in his first statement to the House of Commons as wartime prime minister.)

"You ask, what is our aim, I can answer in one word: Victory - victory at all costs, victory in spite of all terror, victory however long and hard the road may be; for without victory there is no survival."

"You ask, what is our policy? I will say, it is to wage war - by sea, land and air, with all our might and with all the strength that God can give us; to wage war against a monstrous tyranny, never surpassed in the dark, lamentable catalogue of human crime." (Also from his speech of May 13, 1940, just 3 days after his appointment as prime minister.)

"Hitler knows that he will have to break us in this island or lose the war. If we can stand up to him, all Europe may be free, and the life of the world may move into broad sunlit uplands. But if we fail, then the whole world, including the United States, including all that we have known and cared for, will sink into the abyss of a new dark age made more sinister, and perhaps more protracted by the lights of a perverted science. Let us therefore brace ourselves to our duties, and so bear ourselves that, if the British Empire and its Commonwealth last for a thousand years, men will still say, 'This was their finest hour.'" (From his speech of June 18, 1940.)

And finally a warning that is grimly pertinent in this day of appeasement and accommodation with the enemy:

"If you will not fight for right when you can easily win without bloodshed; if you will not fight when your victory will be sure and not too costly, you may come to the moment when you will have to fight with all odds against chance of survival."

TELL OF RED THREAT

Publisher of the Ensign

To counteract or neutralize the liberal education your child is receiving in the public schools, start your own educational program at home. Teach your children about the Communist threat. Past, present and future. Supply them with factual documented materials.

Never underestimate the influence your child has in his classroom either in open discussion or written essays. This educational technique applied throughout the United States would reverse the brainwashing tactics and the students would enlighten their teachers and other children to the distortions and propaganda in their films and books.

Consider the odds. One teacher, 10 informed conservatives. Simple, honest, effective. Start today to turn the tide through the leaders of tomorrow, our children.

FUNNY MONEY

Publisher of the Ensign

The time is coming as surely as night follows day, when citizens of the U.S.A. find the 52-year-old law that 25 per cent of the nation's paper money be backed by gold no longer holds true. Our president, inventor of the Big Noise that he has labeled the Great Society, is said to be pacing the White House floor nights to figure out how best to break the sad news to the American people that international script money is in the offing and a world central bank is being created to further international trade.

Our government and those of Western Europe are studying how to transform the International Monetary Fund into a credit creating agency to meet currency needs of expanding world trade and help member countries cope with payment difficulties.

In the meantime 45 million silver dollars authorized by Congress last year may never be minted. First the government has to find out what the people of the U.S.A. will say to carrying seeds, cockle shells, beads, plastic discs, or aluminum coins around in their pockets instead of silver money. What they will say will be plenty. Already citizens with surplus dollar bills buy newspapers and chewing gum and drop the silver coins they receive as change into jars under the kitchen sink as their protection against phoney money.

Mexico is having the same trouble with its silver pesos. Dirty, ragged paper money has to be renewed regularly and the old money burned, but silver pesos have gone into hiding.

The Great Society can waste all the money it desires in its poverty boondoggle but those who have silver coins will be packing them away for future emergencies, which are closer than we know. Maybe Krushchev was right after all; the American trader, himself will sell the rope with which he is about to be hung. Rockefeller... take a bow.

THE DO-GOODER'S DEEDS

By Tom Anderson

A great majority of the American people, north and south, including many who piously plead from beneath their halos that all men are created equal, don't practice integration and have no intention of ever doing so. They just preach it, for others. Many of the white, eager-beaver integrationists live in towns where there are no Negroes, or they are able to buy their own segregation in all-white private schools, all-white civic clubs, social clubs, golf clubs.

Each weekday many thousands of white suburbanites have their white wives drive them to the station to catch their commuter trains to the city. They kiss their all-white spouses and brood and leave their little Anglo-Saxon, Christian towns for their daily grind without having seen a Negro. They ride a ilk-white train as they read "all the news that's fit to tint" in their leftist newspapers.

REALLY UNDERPRIVILEGED

These culturally-deprived citizens should not be allowed to deny themselves the equal opportunity to really mix with their Negro brothers. The Supreme Court should pass another law requiring these overprivileged hypocrites to benefit by living with, going to school with, working with, socializing with their share of Negroes. It is now unmodern-American to allow Negroes to be discriminated against by being forced on children and poor whites only. The Burning Tree and Augusta National golf clubs, the DAR and the Junior League, NAM and Col C. Princeton and Grotton, must be Mississippi with all deliberate speed.

When President Kennedy illegally sent U. S. Marshals and federal troops to Mississippi to violate that sovereign state and the

U. S. Constitution, the assembled goons and GIs damaged private property to the extent of \$104,544. And the federal government refused to pay a cent of it. The Comptroller General of the United States of America said there is nothing in the record to indicate that the U. S. government ever contemplated or intended paying rent or damages for its invasion of Mississippi. Right. The only way Mississippi could qualify for damage payments would be to get itself declared a foreign state. For 100 years the South has been the only country invaded by the U. S. government which has not been rebuilt by it.

NO CHANGE

One former Southern governor who has many times said: "I'm an old-fashioned segregationist," now declares he's changed his mind. In your heart, you know he's lying. All he's changed is his desire to take a big government job instead of his present railroad job. He's for Let's You Integrate. He reminds me of this episode which occurred down in the bayous of Louisiana: It was Halloween and prayer-meeting night. Just as the final song was sung, some pranksters lifted a huge 17-year-old "devil," dressed in full regalia, into the little church's main window. One minute later the church was empty, except for one very old and very crippled little woman. The devil lumbered toward her menacingly.

"Hold on there, Mistuh Debbl! There's somethin' I gotta tell yo'. I been in this church 57 years. Been President of the Woman's Society, taught Sunday School, ain't never missed a meetin' I was able to git to. But Mistuh Debbl, I really been on yo side all the time!"

THE CONSERVATIVE CORNER

By Clarence Strong

The Battle of Armageddon daily is being fought over the air waves. If you are not listening in on this epochal struggle, you are missing one of the greatest events on today's calendar.

Dr. Carl McIntire, who might in the parlance of the prize ring be named as "Battling McIntire," if he did not merit the ecclesiastic appellations of "Champion of the Bible" and "Defender of the Torah," begins the daily onslaught on two "fm" stations: K3BL, (107.5) at 7 a.m., and on KHOF, (99.5) at 7:30 a.m. Later in the day he shifts his battleground to the "am" station, XEMO (860). At 11 a.m. Dr. McIntire fires salvoes over XEMO, following Richard Cotten, who presents the "Conservative Viewpoint." They change places in the evening over XEMO, Dr. McIntire opening the battle at 6:30, and Cotten following him at 7:00 p.m. with his characteristic knockout punches.

Dr. McIntire, now in the role of a modern David attacking a modern Goliath, has provided some hefty rocks for his sling, and this month is attacking two maga-

zines of nationwide circulation. The target for one of his attacks was an article on the Bible which appeared in December. During this phase of the battle, he defended the Ten Commandments and especially the assertion that Moses was the author of the first 5 books of the Bible, containing these history making precepts.

Last week he shifted his target to a second national magazine which in its January 26th issue published four articles on "CONSPIRACY USA, The frightened Far Right and how it operates." These articles gave the courageous Doctor ammunition for a series of broadcasts, and a basis for the assertion that the Rightists "are fighting to keep the United States Free." He assured his listeners that "The battle against Communism will be fought on the highest spiritual level," and that "We will continue to exalt the word of God in this country."

Conservatives who may oppose these anti-Rightists articles have this consolation:

These anti-Rightists articles and the anti-Bible arti-

cles are being answered by Dr. McIntire, with an appeal to his radio listeners to raise a war chest of \$1,000,000 with which to finance 1,000 radio stations. In addition, he plans to conduct a 3 month evangelical campaign to carry the fight to the people of the United States.

It has been shown that January, 1965, came in with a Lamb who, with nine appearances, laid claim to numerical leadership among the Conservative speakers appearing before Southern California audiences. This person is Mrs. Miriam Lamb, who conducts Americanism classes at the United Community Church in Glendale.

Dr. W.S. McBurnie, known as "The Voice of Americanism," who is serving as Pastor of this church, has lionized the airwaves with 41 radio broadcasts made each week over radio stations in this area. A good way to start the day is to tune in KIEV (870) at 8:45 weekday mornings, and to complete the daily listening sessions at 7:15 each evening, except Sundays, on XEMO (860).

On Monday morning over KIEV, Dr. McBurnie gave a memorial address in honor of Sir Winston Churchill, whose death is mourned throughout the world. He spoke of Churchill as "the greatest person of the Twentieth Century," and lauded the English leader as being an outstanding exponent of conservatism. Dr. McBurnie endeared Winston Churchill to Southland Conservatives by saying in conclusion: "He was one of us."

Copies of this broadcast together with two informative booklets entitled: "Why the Church 'Boom' is Fading," and "Fifty Predictions for 1965," may be obtained by addressing a letter to "The Voice of Americanism," P.O. Box 90, Glendale, California.

FROM THE BIBLE

But let all those that put their trust in thee rejoice: let them ever shout for joy, because thou defendest them: let them also that love thy name be joyful in thee.

For thou, Lord, wilt bless the righteous; with favour wilt thou compass him as with a shield (Psalm 5:11, 12)

EAGLE ROCK. —It is now the policy of the Communists and all left-wingers to accuse all anti-Communists of being "FASCIST." This is an outrageous lie: Those opposed to Communism are bound to be opposed to fascism because THEY ARE BOTH THE SAME. Both deny the individual and constitutional rights. Both enforce the decisions of a ruling minority by TERROR —in the form of torture, purges and slave labor camps. Both demand absolute obedience to the state.

PROBE

With the Soviet Union we seek peaceful understanding that can lessen the danger to freedom.

Last fall I asked the American people to choose that course. I will carry forward their command.

If we are to live together in peace, we must come to know each other better.

I am sure that the American people would welcome a chance to listen to the Soviet leaders on our television—as I would like the Soviet people to hear our leaders on theirs.

I hope the new Soviet leaders can visit America so they can learn about our country at first hand.

In Eastern Europe restless nations are slowly beginning to assert their identity. Your Government, assisted by leaders in American labor and business, is now exploring ways to increase peaceful trade with these countries and with the Soviet Union. I will report our conclusions to the Congress.

LBJ - 1/4/65

As stated above, LBJ considers his election a "mandate" to continue U.S. policy of appeasement and coexistence with communist tyranny. Americans have been subjected to a continuous brainwashing barrage initiated by the forces of tyranny and have been conditioned into believing that Russian Communism is mellowing while Chinese Communism is more bellicose; that European Soviet satellites are becoming independent of Russia and that it is in our interest to extend trade with these communist countries. How many Americans realize this is not a matter of free trade between American citizens and Russian or Hungarian citizens, but trade carried on by American firms under strict government control with tyrannical regimes whose people are in bondage? We are told a serious rift separates Moscow and Peking and it is to our advantage to exploit this "split" by actively supporting Russia in this farcical breach, staged for our benefit. Propagandists for tyranny have done their job well and most Americans accept their lies as truth because it is much more comfortable to believe them!

LBJ said in the above speech: "What is at stake is the cause of freedom, and in that cause, America will never be found wanting." His honeyed words may inspire confidence from the unthinking but those who understand freedom know that, to our everlasting shame, the U.S. government and our politicians are responsible for the growth of communist tyranny and the continued enslavement of millions of our fellow-men. How long before the yoke of tyranny is fastened to our necks?

(Re S.E. Asia) "...the staunch ally of the U. S. in Vietnam, Pres. Ngo Dinh Diem, was slain in cold blood in his church and U.S. Ambassador Henry Cabot Lodge made a triumphant tour of Saigon to let the world know that the assassination had the approval of the State Dept." Reports indicate So. Vietnam will soon be abandoned, despite U.S. denials, thus turning over all of S.E. Asia to communist imperialism.

Why all the red tape?

?

You can understand why we don't sell narcotics without a physician's prescription. But maybe you've wondered why we're so fussy about other things... like penicillin, sleeping pills, the new tranquilizers. These potent medications are called "legend drugs" and you have to have a prescription to get them. Reason: Uncontrolled use may do more harm than good. Only your physician knows whether you should use them or not—and, if so, just how much. So we require a prescription. It's a matter of professional ethics and the law. Always it's common sense.

Ruling Made on Bed Tax

The Newport Harbor-Costa Mesa Board of Realtors has received a special bulletin from the City of Newport Beach clarifying application of the transient occupancy tax to become effective in Newport Beach Feb. 1. The city has ruled that the tax is imposed according to the period of occupancy, not when the rental fee is paid. The realty board had questioned whether the 4 percent "bed tax" will apply to rentals where deposits are made in advance of Feb. 1. The bulletin stated that all persons who rent dwellings for a period of 15 days or less after that date must pay the tax.

JOHN SCHMITZ
REPORTING FROM
STATE SENATE
35th District - Orange County

The day after inauguration both houses met in joint session to hear the Governor's "State of the State" message. I might sum up my impression of the speech as a typical expression of a completely government-oriented society. In a true sense it was philosophically a carbon copy of the President's State of the Union message, and that philosophy is simply this: All of what we as a people have accomplished in the past is due to the government, and all that we can hope to accomplish in the future must come through the government.

Referring to scientific advance for example, he stated: "But let me emphasize that the scientists can only suggest ways in which man can reap the full benefit of his new knowledge. It is here in this laboratory in the crucible of this chamber and these halls - that the final decisions will be made. Let me emphasize also that the decision is yours and mine. No one else will relieve us of the responsibility of making sure the benefits of this golden age of science will flow to our people." (Emphasis mine.)

How far have we come with governmental paternalism when a statement like this receives no notice in the press. Also those who recognize the President's war on poverty for what it is will find little solace in our Governor's words that -

"You will find in my budget a single new program - California's share of President Johnson's war on poverty. I will ask for funds to support our 10 per cent share of the cost of a California office (who does he think will pay ultimately the other 90%) to coordinate the attack on poverty in cities and rural areas around the state."

The thought of such a wealthy state as California as being unable to solve its own poverty problems without help from the rest of the states (e.g. Mississippi, Arkansas, etc.) somehow leaves me stunned.

Later he speaks of the "fact" that "California schools are inifying into larger, more efficient school districts." Now I'm sure there are dozens of educators in our own county who could point out the logical fallacy in implying that unification and efficiency are necessarily directly related.

The following day, as is the custom, I was invited as a new legislator to the Governor's office to meet him. Now I must say in all honesty that meeting him personally gives one the impression that he is a personable, honest, liberal. In other words, I think he really believes he is doing the right thing. Now this neither means that he is right nor does it mean that I will oppose his program any the less, but, as he said, we'll keep our differences on a non-personal basis, which is the only way I'd want it. And I don't think it would be getting personal if I quoted from the California Features Services publication of January 11, 1965, wherein they quoted the Governor as saying on radio that "This flood is the worst disaster since I took office."

Thus far I have co-authored one bill and three joint resolutions, as well as authoring one routine joint resolution and carrying the Anaheim Charter Resolution (ACR-1) in the Senate. When the latter came up for a vote last Friday I was subjected to the traditional hazing which a new legislator goes through when his first piece of legislation comes to a vote, and it was voted down until I threatened to cancel "Legislator's Day" at Disneyland. Then the votes were all changed and the Anaheim City Charter carried - a little horseplay which some people would just love to take seriously.

ROYAL ARCH MASONS WILL MEET FEB. 4

Bond Election Discussed

Asst. Supt. Norman Loats of the Newport Harbor high school district, was guest speaker at the Corona del Mar High School PTA meeting last Thursday. He discussed the upcoming school bond election and unification problems.

Dr. Loats also revealed that the district this year produced 16 national merit scholar finalists and had 450 students listed as gifted.

The association's yearly budget was adopted, and a nominating committee chosen, which will present a slate of officers for election at the Feb. 11 meeting. Those selected for the committee were Mrs. Betty Townsend, Mrs. Clark Sommers, Mrs. Werner Carlson, Mrs. Raymond Lund, and Mrs. Hans Broering.

It was also decided that the PTA sponsor an all-

night boat trip to Catalina Island for the senior students in celebration of graduation. There will be shipboard dancing, additional dancing at the island's casino, and a breakfast before the return sailing.

The PTA will also honor the Corona del Mar graduates at a reception following baccalaureate.

NEWPORT PIER TO STAND STILL

A \$29,000 construction project, calculated to remove the quakes from the Newport Ocean Pier, was undertaken Wednesday, Jan. 20, by contractor Healy-Tibbitts of Long Beach. The rolls of the ocean should be broken by sturdy pilings following the repairs, rather than translated to the pier's deck, which is slated to be redone in concrete.

"During the next 5 weeks it will be necessary to close portions of the pier from public access for intermittent periods," reports acting City Manager Joseph Devlin. Construction is to be staged so that the pier will be open to the public on weekends.

SCOUTS

By Mike McWilliams

The Scouts of Corona del Mar Troop 17 went on a camp-out last weekend, Jan. 23 and 24. They went to Firestone, which is a very nice Boy Scout camp in Brea Canyon. Firestone is a Los Angeles Council Boy Scout Camp.

Saturday Eric Curtis, one of the boys of troop 17, fell off a monkey bridge and broke his arm. The boys in the area applied first aid until the scout masters got to the scene to help. Scout master H.D. McWilliams drove Eric to Hoag Hospital. He is now back to normal except for a new white cast.

Just after midnight, about 12:30 a.m., it started to rain and continued to rain for the rest of the night. On this trip many boys advanced or worked on different badges.

GIRL FOR THE MILLERS

A daughter was born Thursday, Jan. 14, in Hoag Hospital to Mr. and Mrs. Lorenzo Miller, 309 33rd St., West Newport.

THE OUTGOING PRESIDENT of the Newport Harbor Kiwanis Club, Dr. Richard Underwood, Newport dentist, at left, receives a plaque from the new president, Ken Harrison, in recognition for leading the club during 1964. Officers serving with President Harrison,

owner of Ken's Camera Shop, are Jim Kearl, industrial design engineer, as first vice-president; Ted Lindstedt, building contractor, as 2nd vice-president; Ted Mertz, stock broker, as secretary, and Ray Phillips, advertising printer, as treasurer.

ADVISORS NEEDED FOR YOUNG PEOPLE'S GROUPS

SCHOOL BOOKS ARE PROTESTED

(Continued from Page 1)
religious group to be given the right to promote its own beliefs over another, neither is the irreligious person given the right to promote his particular point of view. Christian parents, therefore, are protected by law against any attempt to destroy or weaken their children's faith in their particular church. The religious faith of the majority is protected as well as the freedom of the minority."

Specific basis for the complaint against certain textbooks is presented as follows in the letter to the assemblymen:

"Therefore, we are questioning the appropriation of public money by the legislature for the payment of these textbooks. We feel that certain textbooks present some subject matter in a way that is offensive to the religious beliefs of our children. Specifically, we find the following teachings to be in opposition to the doctrines of our churches regarding the absolute authority of the Bible as God's revealed Word, the source of absolute Truth in which we have taught our children to believe:

"1. The teaching of the evolutionary doctrine that all present forms of life are descended from ancient one-celled protozoa by a gradual progression of slight changes over millions and millions of years. (This is in direct opposition to the doctrine of our churches that God created all things finished and complete according to Genesis and that living things were to reproduce only 'after their kind.' This we teach and believe as historical fact and not as a poetical description of an evolutionary process of 'creation'.")

"2. Teaching that life originated by chance or accident, and that no one knows surely what the first living things were, etc. (This is again in opposition to the doctrine of our churches that God created all things, in the beginning, as is stated throughout the Bible.)

"3. Teaching as historical fact that the earth is more than a billion years old and dating various forms of life at millions and millions of years. (This is in opposition to the teaching of our churches that the earth is 'relatively' young, in the thousand of years, not millions. God didn't need a billion years; according to Genesis he created by the power of His spoken Word. Evolution, however, requires these ages!)

"4. Teaching the history of man as if his origins were in a prehistoric animal world, emerging in a primitive, 'cave man' state, governed by in-

stincts and at the complete mercy of his environment, also that his presumed 'progress' was the result of chance and accidental discoveries rather than the result of intelligent reasoned choice based on knowledge and observation. (This concept of early man conflicts with the teachings of our churches and the Biblical description of early man as created in the image of God, perfect, and charged with subduing the earth and having dominion over everything in the earth and on it.)

"5. Teaching that truth, justice, and morality are based on what society is currently accepting, and promoting the idea that such standards may be properly set by the child's peer group. (This concept is in direct opposition to the teachings of our churches that God's Word and His Laws are absolute Standard for truth, justice, and morality, and that we and our children must abide by God's standards no matter what 'society' is currently accepting. Textbooks may not legally infer that 'total health' depends on one's ability to live in harmony with other people by adjusting to their standards. The pressure on our Christian children to conform to such 'relative' standards is overwhelming.)

"6. Any teachings that secularize sacred Christian

holidays by the substitution of pagan festivals and the promotion of pagan concepts in the place of the historically Christian purpose for Thanksgiving, Christmas and Easter.

"We feel that all the teachings and concepts mentioned above are doctrines of pagan beliefs, especially the atheistic and agnostic teachings of 'secular humanism'. Secular humanism limits man's obligations to the welfare of Mankind, holds to the doctrine that man may perfect his own nature without divine grace, and also holds the doctrine which denies the divinity of Jesus Christ. Such beliefs have been legally recognized by the Supreme Court as 'orthodox religious beliefs,' therefore their doctrines may be regarded as 'sectarian' in nature and origin.

"These beliefs to which our school children are being subjected from the elementary grades to the university level (at tax expense) are destructive of their faith in the authority of the Word of God. These pagan beliefs could cause them to lose their faith in Jesus Christ as the Son of God, resulting in the loss of their eternal salvation. These results are 'hostile to the religious' and we believe them to be prohibited by the first amendment of the United States Constitution."

MAJOR Richard T. Durkee (right), son of Mrs. James T. Durkee of 226 Poinsettia Ave., Corona del Mar, receives a certificate naming him outstanding Air Force Supply officer at Hickam AFB, Hawaii, in recognition of his performance in connection with Air Force supply responsibilities. The major is assigned to Headquarters, Pacific Air Forces (PACAF) at Hickam. Making the presentation is Brig. Gen. C.W. Andrews, director of material, Headquarters, PACAF. (U.S. Air Force Photo)

a contract with the state department of finance for a city population estimate, so the city can receive additional gas tax funds.

Initiated weed abatement proceedings, set hearing for Feb. 23.

Called for bids for an open end contract for construction and repair of concrete curbs, gutters, sidewalks and paving.

Received a report on the "eyesore, anti-litter campaign" from chairman Isabel Pease, who asked the city to encourage the use of the anti-litter slogan, which will be announced at the Feb. 2 dinner meeting of the Newport Harbor Chamber.

Approved the license applications of Beverly Ann Sharpe, Sportsman's Yacht Center, 2200 Newport Blvd., Newport, for slip rental; Oliver W. Ersch, Texaco Service, 7100 W. Coast Hwy., West Newport, for motorcycle rentals; G. Lary Seal for substitution of an ambulance for Seal's Ambulance Service.

Received a petition with 115 signatures asking for replacement of the stop sign at the Christian Science Church crosswalk on Via Lido in the Lido Shops area; referred the petition to the acting city manager.

Received a letter from Mrs. M.A. Alexander, 1900 Haven Pl., Cliff Haven, protesting the 2-hour parking limit on Haven Pl. during school days; decided to give the parking limit a try for a while longer.

Received a letter from Chip Cleary, new chairman of the County Harbor Commission, stating that Ted Kuchel and Richard Honer will represent the commis-

sion on the joint harbor committee.

Authorized the mayor, by a 4-3 vote, to write to Assemblyman Robert Badham stating that the Council has no objection to adding Costa Mesa to the name of the Newport Beach Municipal Court.

Received a request from Herman Kimmel, 426 Fullerton Ave., Newport Heights, that the city conform to the accepted standards of traffic safety by using reflectorized pavement markings on streets; acting City Manager Joe Devlin said the city will do so, finding the pre-mix painting of stripes unsatisfactory.

Directed the acting city manager to check on the request of the Balboa Island Improvement Assn. for closing up 5 unused curb cuts to provide additional parking space; BIA director Ed Soule discussed the request at the study session, and the Council indicated its approval, if the curb cuts are found to be unnecessary for access.

NO SUFFER CLEARED ON WEAPON CHARGE

Whiskered Sid Soffer, proprietor of the Blue Beet beer tavern, 107 21st St., Newport Beach, has been exonerated by Santa Ana Municipal Court Judge David French on a charge of carrying a concealed weapon.

Mr. Soffer was arrested Aug. 10 by a Santa Ana policeman because he had a loaded .25-caliber automatic pistol in the glove compartment of his automobile. He said he explained to the officer that he carried the weapon for protection while he was transferring a large sum of money to his bank.

Sea Kings Win Again

Corona del Mar upheld their Irvine League basketball record to 4 and 2, one notch behind the leaders, by disposing of La Quinta and Village Park this week. In both games the scrappy Sea Kings came from behind.

Tuesday they won a 48-43 verdict over Villa Park, after trailing by 5 at the half. John Vallely found the range in that 2nd stanza and registered 26 points for the game.

On Friday, Corona del Mar only scored 39, and the prolific Vallely only 17, as Roger Hartley's bucket in the last 10 seconds was their only 3rd quarter field goal. But their defense was superb, and they rose to the task in the 4th quarter and held the

taller La Quinta team to 5 points to nab a 39-37 decision.

Newport Harbor and Costa Mesa were idle Tuesday, after both won Friday to share 2nd place in the Freeway League at 4 and 1. This Friday the local quintets clash head and head at the Mesa gym.

The Sailors apparently felt a let down after their loss to Garden Grove last week, and nearly blew one to winless Bolse Grande, but escaped with a 2 point win at 60-58 despite 2 Bolse Grande baskets in the last 30 seconds.

Costa Mesa continued to eke out the close ones by taking Savanna 59-54 last Friday.

Pirates Win 58 to 54

The Orange Coast College basketball Pirates snatched a 58-54 comeback victory from arch-rival Santa Ana College Friday night in the Pirate Gym.

The Bucs now hold a 4-1 Eastern Conference record and an overall season tally of 7-9. Next game will be at Riverside City College Tuesday, Feb. 2.

Friday's halftime tally was Santa Ana 36, Orange Coast 29. The second half appeared a retake of the first until the Bucs scored 4 consecutive field goals, to even the score at 41-41, with 12 minutes to go.

A crucial moment came when Pirate center Jack King drove for a basket and was fouled. The basket counted, and King dunked one free throw for a 3-point lead.

With two minutes and 31 seconds left to play, Coast's lead was only two points - 56-54. A missed free throw by King gave the Dons a

USEDOM IS ELECTED BY B.I. MERCHANTS

The Balboa Island Businessmen's Association met at the Village Inn Monday morning to elect their 1965 officers, and appropriately chose Frank Usedom, owner of the Inn, to be their president. He follows Otis Wright in that capacity.

Other officers elected and installed on the spot were William Thompson, vice president; Helen Bradley, sec-

tary, and Otis Wright Jr., treasurer. Charles Bradley joins the officers on the board of directors.

The merchants discussed underwriting a Balboa Island tram during July and August as they did last summer at the meeting. The tram proved more of an artistic than financial success in its first year, but the proposal was not looked upon unfavorably.

RALPH F. OGBORN, 534 S. Bay St., Balboa Island has been elected vice-president of the Southern California Gas Co. He heads up the company's customer service, customer accounting and customer contact activities and retains responsibility for land and building coordination, which he undertook in 1961, when he was named manager of real estate and industrial engineering. He is a native of Longmont, Colo., and joined the Gas Co. in 1926.

BALBOA IS NAMED ARTIST OF MONTH

Stephanie Cogswell of Balboa has been named February artist of the month by the Costa Mesa Art League, and her paintings will be shown in the council chambers at the Costa Mesa City Hall.

Mrs. Cogswell became interested in painting 7 years ago. She studied first in a studio in Costa Mesa, then went to Orange Coast College to take courses in drawing from Robert Krieger and painting from Charles Bruce Piner.

Women's Club to See Springtime Fashions

A spring interlude fashion show will be sponsored Feb. 25 by the Coast Women's Club of Corona del Mar at the Balboa Bay Club, beginning with an 11 a.m. "all you can eat" brunch. Tickets can be purchased from Mrs. Wm. Halliday, 545-4545, or Mrs. Ray Nielsen, 548-6888.

Models will include small fry, teenagers, and adults from size 9 to 22½, showing the newest spring cotton fashions.

"Tis Spring" is the theme for the event. Three special door prizes and many other prizes will also be presented by Mrs. Harris Lee, Mrs. J. Robinson and Mrs. C. Dur-

way.

Proceeds will benefit UCI scholarship. The general public is invited to attend.

Mrs. Leslie Penn, president of the club, Mrs. R. Wood, founder, Mrs. Bette Koster and Mrs. Ernest Lamping will greet guests.

Mrs. George Fox will direct a sing-a-long, accompanied by Mrs. Nielsen at the piano.

Decorations and posters in spring colors are being made by the art section under the direction of Mrs. Thomas Jaume, art chairman.

Mrs. Nielsen and Mrs. Fox will co-chairmen the event. Other chairmen are Mrs. George Bryson, Mrs. O. Bauman, Mrs. R. Ferguson, Mrs. Carl Siefert.

NATIONAL OFFICER GUEST

Mrs. Hallie Bridges, national first vice-president of the Federation of Grandmothers Club was special guest at the Jan. 14 luncheon meeting of the Newport Harbor Club at the Elks Club in Newport Beach.

GIRL FOR BURNETT'S

Mr. and Mrs. Robert W. Burnett, 310 32nd St., West Newport, are parents of a daughter born Thursday, Jan. 14, in Hoag Hospital.

BOY FOR THE BOOTHE'S

A son was born Sunday, Jan. 17, in Hoag Hospital to Mr. and Mrs. V. Richard Boothe, 1525½ W. Balboa Blvd., Central Newport.

'Birdie' Troupe Gets Shot

Orange Coast College's "Bye Bye Birdie" troupe has a new routine.

The 16-student group will tour the Pacific with the Broadway musical and a variety show through February and March. But lately, the players have been seen in a display known as the "cholora shot jive."

This act, not part of regular theatrical performances,

stems from tetanus, typhoid, yellow fever, small pox, cholera and typhus inoculations. The sponsoring United Service Organizations and American Educational Theater Association, with the military in the Pacific area, require each player to receive the "full overseas course" of immunizations.

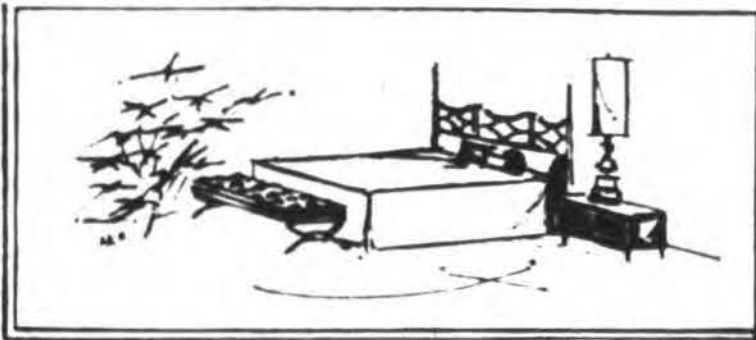

The troupe will leave for Japan, Okinawa, Korea, Hong Kong and Alaska Feb. 8 and will return to OCC March 28.

EARLY LAGUNA ART IN CITY HALL DISPLAY

An exhibit by the early artists of Laguna Beach is on display at the Newport Beach City Hall during the months of January and February. It is being shown under the auspices of the Fine Arts Committee of the City of Newport Beach.

The represented artists are: Eleanor Coburn, Elmer Wachtel, Edgar Payne, F.P. Brand-drift, William Wendt, Clarence Hinckle, Norman St. Clair, Thomas Hunt, Anna Hills, May Olivey, Gardner Symonds, John Hinchman, William Griffith, William W. Giddell, Lucienne St. Mark, Alice Fullerton, and Frank Cuprien. Virginia Woolley and Hansen Puthoff are the only two surviving artists.

a stop sign at the corner of St. Andrews Rd. and Cliff Haven, until it broke off at the base, at which point one of the boys exclaimed, "There goes another one"; sure enough, investigation revealed another sign had been similarly downed at St. Andrews Rd. and Clay St. A thief jacked up an automobile in the storage lot at Roy Carver Pontiac, 1400 W. Coast Hwy., Newport Beach, and removed 2 front tires. A burglar entered the office of Dr. Alan Andrews, 601 Dover Dr., Suite 11, Newport Beach, and obtained over \$1,800 worth of pillage, including a Thermofax copy machine, an electric typewriter, an adding machine, a tape recorder, a hand-carved oriental medicine woman, an ivory fertility goddess, and a matching ship's wheel clock and barometer set; no money or narcotics were taken. All 4 hubcaps were stolen from the automobile of Denise Jacobs, 1170 Rutland Rd., No. 3, Westcliff, parked in the carport. Raymond Glenn, 1511 Cliff Dr., Cliff Haven, clipped the parked automobile of Myron Bradshaw of Long Beach on E. Balboa Blvd. west of Main St., Balboa, as he was pulling over to park his own automobile.

Wednesday, Jan. 13
Karen Cummings, 16, of 109 27th St., West Newport, took a heavy dosage of antihistamine to combat a cold, became groggy, and was administered oxygen for 5 minutes by firemen, before obtaining a ride with an ambulance to Hoag Hospital. A police officer answered a call of a family disturbance at 115 Diamond Ave., Balboa Island, and was greeted by Walter Brunner, who jumped up from a chair and told him, "So I'm drunk, I'm under arrest"; the police proved that Mr. Brunner had taken the words right out of his mouth and arrested him on a drunk charge. A routine traffic check at 1520 W. Coast Hwy., Newport Beach, turned up 2 delinquent breakers of the vehicle code, both of 323 Crystal Ave., Balboa Island, residents; a warrant was outstanding on Larry Beckman for a moving violation, and one on William Spreng for a parking ticket. A defective iron burned a rain coat and an ironing board cover at the home of Mrs. E. Hunt, 312½ Marine Ave., Balboa Island, but she doused the board before firemen arrived. A stack of trash and an old railroad tie were set fire at the west jetty and firemen dutifully extinguished the blaze.

A bicycle was stolen from the carport at the home of 10-year-old Marcia Holmes, 606½ W. Balboa Blvd., Balboa. A thief helped himself to an electric wall clock at a self-service laundromat, Mariners Coin Laundry, 177 Riverside Ave., Newport. A bicycle belonging to Bret Schulman, 1601 Warwick Ln., Harbor Highlands, was taken from the Mariners School bike rack. A tenant checked out of a rental at 223½ 32nd St., West Newport, owner John McKeeren, 442 El Modena Ave., Newport Heights, discovered that she took a lamp, bed clothing, and 2 throw rugs with her. Helen Deir, 408 Goldenrod Ave., Corona del Mar, made several neighboring stops between 1:30 and 2:30 p.m., and found out that somewhere along the way a hubcap had been stolen from her automobile. Some 250 pounds of frog legs worth \$1 per pound were stolen from the rear of the Delaney Bros. Seafoods Company delivery truck last Nov. 2; Frances Delaney, owner of the firm, 2800 LaFayette Ave., Newport, was hopping mad, but did not croak to the police until this date. Eleven-year-old Paul Sides, 216 21st St., Newport Beach, riding against the flow of traffic on W. Balboa Blvd., rammed against the automobile of Robert Briscoe, 779 Hudson Ave., Costa Mesa, who had edged out into the traffic to turn right; the boy was not injured. Peter Torre, 223 Agate Ave., Balboa Island, was eastbound on Westcliff Dr. near Buckingham Ln., Westcliff, when he abruptly changed from the passing to the curb lane and ran into the automobile of John Mauck, 112 W. Coast Hwy., Newport Beach.

Thursday, Jan. 14
Ernest Mateo Jr., 1603½ E. Balboa Blvd., Balboa, told an arresting officer, "I'll come quietly," when he was picked up at his home on warrants for 4 delinquent moving violations. Robert Munce, 2915 Cassia St., East Bluff, was arrested on a traffic warrant. A reflection on window curtains from a fireplace log lighter caused A W. Coast Hwy. passerby to report a fire at the home of Barbara Gartler, 2919 Cliff Dr., overlooking the highway from the bluffs. A tennis racket was stolen from Vivian Leeman, 209 41st St., West Newport, sometime prior to 2 a.m., but more upsetting was the fact that the racket was lying on the back seat of her automobile, which was also missing from where she parked it in front of the Castaways Bar, 730 Lido Park Dr., Lido Peninsula. A thief pried open the front door at the home of William Surlingham, 1203 Bayside Dr., Corona del Mar, ransacked the closets, and made a prize find, a \$500 lady's diamond wristwatch. Fifteen-year-old Dave Rivers of No. 10 Balboa Coves found a \$150 German-made camera near the Aquatic Center, 4323 W. Coast Hwy., Newport Beach. A bicycle owned by Bill Sedlak, 1906 Diana Ln., Harbor Highlands, was stolen from in front of the Westcliff Plaza Market Basket. Jerry Illingworth, 410 31st St., West Newport, parked his automobile on 21st St. near the Newport Pier, and it was run into by an unidentified motorist. John McLane of Pasadena must have put a tiger in his tank, for he reached inside his automobile parked on Onyx Ave. south of N. Bay Front, Balboa Island, turned on the ignition, and just because the car was in reverse gear it decided to take off; he was knocked flat by the open door, injuring his left shoulder and arm, as the automobile bounced off the parked car of Constance Legg, 319½ Onyx Ave., and came to rest across the street against the car of Lehana Doane, 612

Gordon Siple, 406 40th St., West Newport, grabbed hold of a 52-year-old, 145-lb. transient named T.G. Smith, and held him until a police officer could uncover a set of drill bits and a steel measuring tape, belonging to the arresting citizen, in the unfortunate's man's pockets; Mr. Siple had spotted Mr. Smith in the cab of his pickup truck, parked in the driveway at his trailer business, 500 N. Newport Blvd., Newport Heights, and had not swallowed an explanation of "I'm drunk and just crawled in here looking for a place to sleep," when he saw the contents of the glove compartment strewn on the floor. . . Douglas Copeman, 2381-F Elden Ave., Costa Mesa, was arrested on a charge of intoxication at Hoag Hospital where he had been left by friends for treatment of a cut above his left eye; Mr. Copeman, told police he had been drinking boilermakers (bourbon with beer chasers) at the Sea Shanty, 630 31st St., Lido Peninsula, had received the cut in a scuffle with these same friends when he insisted on driving home. . . A fireman crawled through the 2nd story window and unlocked the door at 542 El Modena Ave., Newport Heights, to let Ledia Strother in her home. . . Orval Lloyd, 1421 Superior Ave., West Newport Heights, saw 2 juveniles use a screw driver to force open a window of an automobile owned by Richard Hirt, 213 Via Cordova, Lido Isle, at 10 a.m. in the Newport Harbor High School parking lot; the offenders were caught and taken into custody. . . Mrs. Helen Contant, 618 Ramona Dr., Irvine Terrace, reported that her son's jacket had been stolen about Jan. 5 from Lincoln school, where he had left it on the playground. . . \$3.80 was taken from a vending machine coin box at the Standard Station, 2546 E. Eighteen-year-old Steve Foote, 966 Post Rd., Costa Mesa, walked into the printing shop at 2211 W. Balboa Blvd., West Newport, and, in front of several women, challenged employee James Barrett of Anaheim with "Come on you . . . let's fight;" Mr. Barrett reported a similar run-in with the same youth at St. John the Baptist Church in Costa Mesa the day before Christmas. . . A vandal snapped the radio aerial off of the car of William Abshorn, 3803 Marcus Ave., West Newport. . . A famished burglar stole some foodstuffs and a gallon of red mountain wine to wash them down with from the home of Rodney Cully, 1200-A.W. Balboa Blvd., Balboa, while the victim slept. . . Carol Bruder, 1221 W. Balboa Blvd., Balboa, had her wallet containing \$65 when she was at the Market Basket, 3100 W. Balboa Blvd., West Newport, but

after making one more stop at Le Valley's Food Mart, 112 McFadden Pl., Newport Pier, missed the wallet when she got home. . . Luella Webster, 269 Del Mar Ave., Costa Mesa, parked her automobile at 3939 W. Coast Hwy., West Newport, Jan. 11, and the spare tire was stolen from her trunk. . . An Irvine Co. An automobile belonging to Denis Calle, 430 Redlands Ave., Newport Heights, refused to wait at 13th St. and W. Balboa, while its master attended a party. . . A great dane owned by Winn Parkmeyer, 1101 N. Bay Front, Balboa Island, may have gotten a great disappointment when he only got a mouth full of jacket after attacking 9-year-old James Raymond, 305 Marine Ave., Balboa Island, who was riding his bicycle on the Bay Front sidewalk. . . A first aid kit and a women's purse holding a \$10 bill were stolen from the automobile of Marilyn Davies, 300 Narcissus Ave., Corona del Mar, parked in the driveway at the rear of 2008 W. Ocean Front, West Newport. . . A surfboard was stolen from the rear of the home of Charles Bainer, 120 28th St., West Newport. . . Monna Fisher, 718 Iris Ave., Corona del Mar, observed 3 men in their late 20's loitering in the walkway adjacent to the bedroom of her home, but didn't realize that they had entered it to steal a coin purse and a billfold containing \$17. . . Coast Hwy., Corona del Mar, and ran into the parked automobile of Dr. John Rusch, 1941 Commodore Rd., Baycrest, pushing it into the parked car of Barbara Mullane, 2834 Tustin Ave., West Upper Bay, which in turn jammed the parked car of Kenneth Roberts of South Laguna, shoving this last automobile 10 feet; Mr. Ray was not injured.

Saturday, Jan. 16
Robert Prenter of Hermosa Beach told Roger Stine, 2621 Harbor Blvd., Costa Mesa, who was sitting in his car in front of 203 41st St., West Newport, at 2:40 a.m., "Let me in, I'm going with you," and Mr. Stine countered with, "No, you aren't," as he locked the door, but the Hermosan smashed the rear rear window, which resulted in his arrest. . . Eighteen-year-old Steve Foote, 966 Post Rd., Costa Mesa, walked into the printing shop at 2211 W. Glenita Smailian, 23, of 505 Park Ave., Balboa Island, and visiting 7-year-old Tom Barnard of Azusa had ridden across the channel on the ferry Sunday, Jan. 17, and were sitting on a wall on the peninsula, when they suddenly were the victims of a traffic accident.

Balboa Blvd., Balboa, as he drove west on W. Balboa Blvd. near Island Ave. The Hamm car, which was totally demolished, spun across the sidewalk into the concrete retaining wall, pummeling the 2 fence sitters to the ground.

Skill Centers Planned

Asst. Supt. Norman Loats of the Newport Harbor High School District has been informed that the state and federal governments will pump large sums of money into vocational education in the near future. What we have known as technical high schools will be abolished in favor of county skill centers, he relates.

A Los Angeles Vocational Education Conference, Jan. 11 and 12, he was told that large numbers of our citizens need restraining and reeducating. The skill center would be a step in this direction, with the eventual goal being to release industrial employees 8 hours of each month to attend one of these centers.

Dr. Loats was a guest at

The discussion provided an opportunity for Dr. Loats to bring up a point not favorably received by the state educators. He told the conference that "since the large urban areas have the most high school dropouts, and these are certainly among those who have need of retraining, why not stay with the smaller school districts with their greater holding power?"

Dr. Loats recalls that the dean of UCLA's extension service, predicted 50% of the youngsters now in 6th grade or below will follow occupations that are unknown today.

J.P. COLYAR, music instructor at Orange Coast College, will be organ soloist at a free concert to be given at 3 p.m. Sunday, Jan. 31, in the OCC auditorium by the OCC-Costa Mesa community orchestra.

Concert Jan. 31 by Community Orchestra

The Orange Coast College City of Costa Mesa Community Orchestra will present its second concert at 3 p.m. Sunday, Jan. 31, in the OCC Auditorium.

The concert will feature or-

gan soloist J.P. Colyar and a woodwind quintet. The public will be admitted without charge.

The Community Orchestra, developed from an OCC Evening College class, will perform Mozart's Symphony No. 40 and Handel's Grand Concerto in B-flat Major. OCC instrumental music instructor John Williamson will conduct.

Mr. Colyar, OCC music instructor, will play the Concerto for Organ and Orchestra by Flor Peeters. Mr. Colyar, new to the OCC staff in September, teaches organ, piano and music theory classes. He is organist for the Costa Mesa First Methodist Church, and organist and choir director of the Costa Mesa Ward of the Church of Jesus Christ of Latter Day Saints.

He received his bachelor degree in music performance from Brigham Young University, Provo, Utah. He studied under organ virtuoso Flor Peeters at the Royal Flemish Conservatory, Antwerp Belgium. Later Colyar won his master of music degree from the University of Utah.

The woodwind quintet is made up of OCC business data processing instructor Richard Brightman and his wife, Kay, oboist and bassoonist, respectively; Laura Whitcomb, a Costa Mesa elementary school teacher, flutist; Keith Johnson, a Huntington Beach school teacher, French horn; and Richard James, an engineer at Philco Aeronautics, clarinetist.

The ensemble will play "Quintet" by Paul Hindemith.

The Community Orchestra was formed in September, 1964, under direction of Dr. Thomas A. Blakely, OCC district director of Evening College, and Mrs. Bette Berg, Costa Mesa Recreation Department cultural arts coordinator.

The college provides Mr. Williamson as director and rehearsal space for the orchestra. The City of Costa Mesa provides guest conductors and concert management.

Coffee Bundle to Aid Thrift Shop

The Assistance League of Newport Beach presented another in a series of area "coffee" in the League Service Center on Wednesday, Jan. 20.

Harboring contributing bundles of discarded clothing, toys, and odds and ends of furniture, for the Thrift Shop were welcomed by League president, Mrs. Lonnie Vincent, and hospitality chairman, Mrs. Wade Fairchild.

Funds from the Assistance League Thrift Shop, 505 32nd St., Newport Beach, aid in maintaining the Children's Dental Health Center, the League's main philanthropy. The Dental Center now cares for students in 32 Newport Beach-Costa Mesa schools.

Volunteer League members serve as dental assistants, x-ray technicians, and receptionists. Local PTA chapters furnish transportation.

Thrift shop proceeds also aid in maintaining the Assistance League welfare and community service program. Since 1945 it has awarded \$28,475 in scholarships to students in the Newport Beach-Costa Mesa area. An additional \$3,500 has been given to the American Field Service for foreign exchange students. Each year the League presents \$500 to Hoag Memorial Hospital. An emergency welfare program is provided, where-in committee members work "round-the-clock, around the year," investigating calls and giving temporary aid where a need exists. Other services include Girl Scout camperships, Girls Club camperships, and the adoption of a refugee child through the Foster Parent Plan. During the past year the Assistance League contributed more than \$30,000 to welfare and community service in this area.

Hostesses assisting Mrs. Fairchild were the Meses. O. Gayle Suess, Joseph Earhart, Walter Burroughs, Robert Lang, Robert Leitner, Allen Cissell, Vincent DeRosa, and Colin Reynolds.

Lonnie Frisbee, 215 Cecil Pl., Costa Mesa, believes he danced a couple of weeks ago with the girl friend of a 16 or 17-year-old youth who slugged him in the restroom at the Balboa Rendezvous Ballroom, kicked him in the stomach and chest while he was down, and threatened to beat him up again if he showed up next Saturday night.

Sunday, Jan. 17
Forty-five-year-old Clyde McCall, 1724 Terrapin Way, Baycrest, dislocated his shoulder when a skate board slid out from under him in front of his home; firemen immobilized his arm with gauze and treated him for shock, until an ambulance could take him to Hoag Hospital.

Police recovered an automobile, stolen in Laguna Beach this same date, in the south end of the parking lot at Balboa Blvd. and W. Coast Hwy., West Newport, where it had been abandoned with a crumpled right front fender and a flat tire.

A surfboard was stolen from the garage of Mary Paddock, 319 62nd St., Newport Shores.

James Chalk, 210 1/2 Apolena Ave., Balboa Island, and his car was struck. John Clark of Huntington Beach, crossing Seashore Dr. on 54th St., West Newport, ran into the automobile of Sheila Hornung, 4808 Neptune Ave., West Newport, and incurred a lump on the right temple. Howard Keen, 2312 Arbutus St., East Bluff, skidded 57 feet into the automobile of Raymond Webb of Laguna Beach, who was turning into a private driveway on E. Coast Hwy. west of Begonia Ave., Corona del Mar. Someone ran into the left door on the automobile of Morris Popov, 2937 Jacaranda Ave., Costa Mesa, while it was parked in the city parking lot west of 21st St., Newport Beach.

Monday, Jan. 18

Bryan Holm, 303 E. Bay Ave., Balboa, was arrested on a warrant charging him with entry without consent. Joseph Baker, 17, of 116 35th St., West Newport, left home to make his own way in the world following a spat with his parents whether he should take a job which would send him from city to city selling magazine subscriptions. A burglar pried open a window and forced a locked briefcase but apparently gained nothing for his exertions at Armo Realty, 3034 E. Coast Hwy., Corona del Mar. Two pieces of luggage and a foot locker were stolen from the garage of Eloise Luther, 216 20th St., Newport Beach. A burglar pried open the rear door at House of Hair Coloring and Coiffures, 3020 E. Coast Hwy., Corona del Mar, turned off the master electric power switch, and looked in all the cabinets, but found nothing to his liking; so he tried Rod's Barber Shop, 3030 E. Coast Hwy., again prying open the rear door and tripping a master power switch, and this time came away with \$20 from the cash register. Two hubcaps were pried from the automobile of Martha Marx, 1631-B W. Balboa Blvd., Central Newport, parked near her home. A boat cover was removed from the boat of E.L. Gillingham, 121 Via Koron, Lido Isle, moored at the Via Antibes storage area. A thief entered the patio door at the home of Brenda Babbitt, 4801 Seashore Dr., West Newport, Jan. 14, and stole 2 bottles of liquor from a kitchen cabinet, plus \$165 in ski

clothes from a hall closet. John Mattson, 2223 Alta Vista Dr., East Bluff, reported a spare tire taken from his Volkswagen during the past week. Michael Foster, 119 39th St., West Newport, witnessed an automobile bearing a license number traced to Mary Davidson, 821 W. Bay Ave., Balboa, back into the garage door at 3901 Seashore Dr., West Newport, causing an estimated \$50 damage, and drive away. William Bell, 3500 Marcus Ave., West Newport, parked his automobile near his home, and it was mashed during the night.

Tuesday, Jan. 19

Firemen discovered an extra usage of a broom when they employed it to knock down the flames burning over a 6 foot area on the street in front of 1348 Irvine Ave., Harbor Highlands, then swept up the glass from a "Molotov cocktail" with it. Firemen administered oxygen to Eugene Crowley, 2938 W. Coast Hwy., Mariner's Mile, who suffered an apparent heart attack shortly after midnight, until he was escorted by ambulance to Hoag Hospital. An automobile, stolen in Costa Mesa the day previous, was recovered at 23rd and W. Ocean Front, West Newport, embellished with several dents. A silver bracelet was abandoned on an outside porch by a burglar who forced open a sliding glass door at the home of Kathryn Shaw, 8 Rudder Rd., Beacon Bay, but \$14.50 discovered in a coin purse was not rejected. Nine-year-old Denise Newcombe, 730 Malabar Dr., Irvine Terrace, was bitten on the cheek by a cocker spaniel while she and her parents were visiting at the home of Mr. and Mrs. W.F. Bonner, 2901 Pebble Dr., Harbor View Hills; dog and child had been inoculated recently against rabies and tetanus respectively. Robert Forbes, 4717 Lampden Rd., Carmo Shores, laid his trousers on a stool in front of his locker at Irvine Coast Country Club, Jan. 16, and someone stole a money clip containing \$35 in currency from the pocket. Diane Crosson, 416 E. Ocean Front, Balboa Island, complained that she hadn't received any mail for almost a week, then discovered 2 torn open letters, addressed to her, discarded near her mail box. George Myette, 115 34th St., West Newport, reported his bicycle stolen

from a friend's garage at 3106 W. Ocean Front, West Newport. Wendell Warner, 239 Lugonia St., Newport Shores, noticed the absence of a large paper bag containing antique coins from a spot near his living room couch, the day before Christmas, checked upstairs in the bedroom, and discovered several more missing from his coin books; total worth of the rare United States coins was set at \$2,000, with the burglar also latching on to \$100 in long play records for good measure. A ship's wheel was stolen from the fence at the home of George Stricker, 1112 W. Bay Ave., Balboa. Adelebert Beard, 251 E. Bay St., Costa Mesa, is minus a \$75 Evinrude outboard motor which was stolen from storage at the South Coast Co., 2224 Newport Blvd., Newport Beach. Vandals virtually destroyed an 8 foot dinghy owned by William Cunningham, 1770 W. Balboa Blvd., Central Newport, and moored at the American Legion Hall, 215 15th St.; on Jan. 14 they removed the canvas cover, broke the windshield, removed the engine cowl and poured salt water in the outboard motor, and stole a fire extinguisher, seat cushion, and several tools. The Corolido Apartments, 476 Seaward Rd., Corona Highlands, were stung twice by bum checks during the past year. A deck of playing cards in a leather case and a pair of sun glasses were taken from the automobile of Evelyn Sherwood, No. 340, Balboa Bay Club, by a thief who sprung a window. Terry McClelland, 17, of Huntington Beach, rear-ended an empty Newport Beach Elementary School bus driven by Eva Taylor, 239 Walnut St., Newport Shores, while it was stopped for a signal on E. Coast Hwy. at Jayside Dr., Newport Beach; a police officer tested the brake pedal on the surfboard laden station wagon and found it could be pushed to the floor.

Wednesday, Jan. 20

Harold Hannigan, 2817 Broad St., Newport Heights, told a police officer, "I had only about 10 beers, leave me alone so I can drive my car home and go to bed," as he braced himself on a parking meter; the officer's attention had been attracted when Mr. Hannigan tripped over the curb in the 2300 block of W. Coast Hwy., Mariner's Mile. An alert patrolman spotted Dennis Anderson, 2601 W. Coast Hwy., Mariner's Mile, enter the C and F Boat Yard at 2312 W. Coast Hwy. on a bicycle, then followed up by searching him as he exited from the building and found 3 blank payroll checks, which had been torn from a payroll book in the office, on his person; Mr. Anderson contended that he worked for the boat yard but could not tell the officer how to contact the owner to verify his employment, so was arrested on a charge of burglary. A load of wash was effectively dried as a dryer at the home of Jack Martin, 2253 Golden Circle, Jack Bay, burned the clothes, the tumbler, motor, and insulation, before firemen could arrive to redampen the whole mess. A vandal reached up and bent 2 blades on an exterior electric fan at the Balboa Bakery, 301 Main St., Balboa. A burglar stole 2 pieces of luggage, valued at \$125 each, from the garage at the home of Ann Herskowitz, 441 Seville Ave., Balboa, and also decided to keep the padlocks he had removed from the garage door. Andrew Skwarek, 451 Redlands Ave., Newport Heights, discovered that he too was the victim of a Volkswagen spare tire theft sometime since Jan. 13. Jesse O'Kelley, 19, of 1703 W. Balboa Blvd., Central Newport, rear-ended the automobile of R.J. Strong of Santa Ana, who had stopped for a pedestrian on Balboa Blvd. at 38th St. Traffic was backed up at 3:30 p.m. on E. Coast Hwy. at the Dover Dr. intersection, when Robert Ayres, 318 1/2 Costa Mesa St., Costa Mesa, drove over the Jack Bay bridge and slid 10 feet into the rear of the automobile of Caroline Dickey, 120 Marine Ave., Balboa, who was driving

also of 120 Marine Ave., complained of a pain in her back. Mr. Ayres cut his lip, and 16-year-old passengers in the Ayres automobile, Diana Twitchell, 525 Fairfax Dr., Costa Mesa, and Ralph Ring, 529 Hamilton St., Costa Mesa, reported pains in the head.

Thursday, Jan. 21

Kenneth Russell, 324 Anade Ave., Balboa, who told a police officer he was in a hurry to get home, drove east on Bay Ave. from Island Ave. to Anade Ave. and was stopped for going the wrong way on a one way street; a charge of carrying a concealed weapon was tacked onto the citation when the officer discovered a 22-caliber pistol in his locked glove compartment. Franklin Pierce, 19, who gave his address as Orange Coast College, admitted to drinking too much beer when he was picked up at 5:40 p.m. at the rear of 106 22nd St., West Newport. Barry James, 1335-C Baker Ave., was arrested at his residence on a charge of suspicion of burglary when 2 marine boat radios stolen Dec. 2, 1963, and sold to a Costa Mesa man for \$225 in December of 1964, were traced to him; he said he bought them off a guy he met in a bar. Doris MacDougall, 433 Tustin Ave., Newport Heights, fell on the sidewalk, skinning her knee at 3444 Via Lido, Lido Shores Area, but the case was more serious than that, as she was taken to Hoag Hospital for a possible stroke or heart attack. Owner Pete Fenton, 264 Brentwood St., Costa Mesa, reported that 5 washing machine windows had been broken, and all the chairs and tables turned upside down at his all-night laundry, 200 30th St., West Newport. Three hubcaps were stolen from the automobile of Charles Stamford, 445 Santa Ana Ave., Newport Heights, parked in the 3000 block on Broad St. near his home. Three belly boards were stolen from the rear yard at the home of Mark Miller, 428 Goldenrod Ave., Corona del Mar, on Jan. 17. Two sets of men's sports clothes were removed from a closet in the residence of Richard Hurka, 110 1/2 Sapphire Ave., Balboa Island; Mr. Hurka reports that he is burglarized about once a week, with usually only one small item being taken, by someone who evidently has a key to his front door. A very thorough thief stole a sail sack and frozen food from the garage, a piggy bank containing roughly \$25 in coins from the bedroom, and a transistor radio from the bedroom at the home of Ray Brownhill, 1411 Kings Rd., Cliff Haven, but apparently no one reminded him not to take any wood-nickels as he also stole a simulated silver dollar the owner had received in the mail as an advertising gimmick. Robert Romer, 310 62nd St., Newport Shores, lost a \$250 Sabot sailboat from the beach area in front of his home, between the 13th and 16th of this month. Susan Plosser, 17, of 443-B Via Lido Sound, Lido Isle, who was northbound on 51st St., West Newport, and 22-year-old Lynn Zook, 5208 Seashore Dr., West Newport, eastbound on Neptune Ave., entered the intersection simultaneously and their automobiles became entangled.

Parking Fine Going Up

If you are one of those purposeful parking violators who will pay a dollar citation as the cost of parking when in a rush, be prepared to shell out \$2 following Feb. 1. The city has taken this step to curb such doings. And even if like most, you simply forget that your time on the parking meter has run out, it's going to cost you \$2 after that date.

Newport Beach Police Chief James Glavas reminds that "meters and limited parking zones are designed to provide parking turnover,

and that every effort is made through enforcement to spread the use of existing parking space to the greatest number of persons."

Therefore, at the request of the City Council, Municipal Court Judges William Christensen and William Spiers have hiked the fine to provide a greater deterrent.
